

Vee

Design by Q Design

With Vee, Allermuir has produced a solution that allows individuality and collaboration to happily coexist. With its simplistic, inviting form, complemented by full, sound absorbing upholstery, as well as integrated power and under seat storage, Vee is ideally suited for quick touchdowns and recharges, or longer work meetings.

Design
Design by Q Design

Q Design was launched as Quicksilver in 1994. After quickly finding themselves in the spotlight of the contract furniture industry, Q Design has evolved into an edgy, one-stop-shop for product development. With their intellectual

partners, they are not only able to design award-winning furniture and products but also assist in revitalizing client's images, communication, and distribution to keep up with the industry's ever-changing standards.

- Integrated power (2 Powered USB in Black)
- Two-tone upholstery

Allermuir 3 R's

Allermuir is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

While recycling is the element which

receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

REDUCE
REUSE
RECYCLE

Finish Options

Vee products can be upholstered in a select range of fabrics from Allermuir's standard upholstery collection
